Leisure businesses come in many shapes and sizes, from amusement parks to zoos. Whilst they each face unique challenges, what they often have in common is their exposure to potential liability claims.

## Leisure Insurance

Whatever type of leisure business you operate you need to stay up-to-date with legal changes, health & safety legislation, and issues that can affect your leisure property. This is where we can help.

### Our experience

Our knowledge and experience as specialist insurance brokers for the leisure industry means we tailor individual solutions to protect your employees and visitors.

We understand the unique challenges that are presented, together with this increased exposure to potential liability claims. The true test of any insurance policy is how it responds in an event of a claim.

We provide our clients with a dedicated in-house claims team, which ensures property claims are managed without unnecessary delay.

What's more, for liability claims, a strong defence is put forward and maintained by insurers.

We build bespoke solutions for each of our customers based around individuality, goals and challenges.
