About PIB Insurance Brokers

We are a dynamic business created to fill a gap in the market for a specialist, independent, client-centric and service-focused insurance and risk management adviser.

Our formation in 2015 reflected the belief that the disappearance of many mid-sized brokers created the opportunity for a new entity, focused on the needs of clients, using a specialist sector-specific approach, and with close client relationships at its core.

As part of PIB Group, we are part of one of the UK's leading independent, diversified, specialist insurance and risk management advisers with an increasing international presence.

We are achieving this through a combination of hiring experienced and talented individuals, organic growth and targeted acquisitions.

Our group operates out of in excess of 50 offices around the UK trading under various brands but with a common ethos.

Whilst we are largely focused on serving the UK domestic market, we are able to support our clients with their risk and insurance needs both domestically and internationally.
