

Tailored, advice-led insurance for the agricultural community

PIB Insurance Brokers agriculture team specialises in high-quality, advice-led insurance solutions for farming businesses.

We pride ourselves on building long-term, professional relationships with clients. We take the time to understand just how your business works. And we can tailor the most suitable insurance package to protect you, your business and your family.

Unashamedly old fashioned

Our specialist agriculture team has been working with agri-businesses for more than 40 years. We have the experience and technical know-how to make sure you're getting all the cover you need, and nothing you don't.

Tailored, advice-led insurance

We are unashamedly old fashioned. We understand that farming is about relationships, which is why we'll visit your farm and take the time to fully understand your business and the risks it faces. No two farms are the same, and insurance packages shouldn't be either. Working with a panel of leading farm insurers, we'll build a portfolio of policies tailored to your individual needs. Everything you need, nothing you don't.

As a broker acting on your behalf, our access to a range of markets allows us to get you the right price for your insurance packages, each and every year.

What do we cover?

- > Buildings, contents, produce & deadstock
- > Business interruption
- > Livestock
- > Liability
- > Personal accident and sickness
- > Engineering inspection – LOLER testing
- > Diversification – we provide commercial insurance for a huge range of farm diversifications
- > Goods & livestock in transit
- > Directors' & officers' insurance (inc HSE investigations)
- > Legal expenses
- > Home buildings & contents
- > Motor

Charity support

Our team has its roots firmly in the agricultural industry. That's why we're proud to support the work of The Farming Community Network, a charity working within rural communities to provide support to farmers and businesses in need. We also aim to promote awareness of the importance of mental health in the farming community.

While farming can be a rewarding career, it can also be a lonely and frustrating way of life, providing challenges and testing the resolve of farmers across the board. The Farming Community Network provides support services, advice and information to those in need, and is entirely funded by charitable donations.

We operate a referral donation scheme to existing clients. A proportion of commission earned on referred business is donated to the network to help support its work within the community. The scheme also helps to raise awareness of mental health issues, which often go undiscussed, by creating a talking point with our clients.
